Lush blue spruce sets the scene for a deep green moss band. Lichen twigs, cinnamon sticks and rustic cones add warmth and depth. Little matt snow-white baubles add a touch of frosty sparkle, whilst a natural larch twig hangs diagonally across the ring, decorated with small eucalyptus and white decorative glass baubles - AND this year's special addition is a set of LED lights to add a warm glow to welcome all visitors to your door!

DESIGNER CHRISTMAS FLOWER ARRANGEMENT

£60.00

We're going big in size and texture this year - a stylish square dish (40cm x 40cm) will add extra drama to a lush and trendy design featuring matt snow whites, pine and olive greens with accents of eucalyptus and suede brown. Soft green Amaryllis will pair beautifully with lichen twigs and the warm winter glow of eucalyptus-coloured baubles. A selection of wintery Blue Spruce, Chamaecyparis, Sugar Pine and moss will be delicately contrasted with selected tropical foliage. Pine cones and larch twigs add the finishing touch.

CHRISTMAS TABLE ARRANGEMENT

£60.00

This year we will make a more 'traditional with a twist' design to adorn the Christmas dining table (or coffee table). An elegant oval dish will present a detailed design of green and white flowers (including roses) nestled amongst Blue Spruce, olive-green Thuja, moss and berried Ivy. Acacia sticks and cones add the warm woody tones and candle-light is provided by 4 eucalyptus-white taper candles (from Broste Copenhagen). Shimmering eucalyptus glass baubles add the finishing touch to this elegant design!
